

Problem

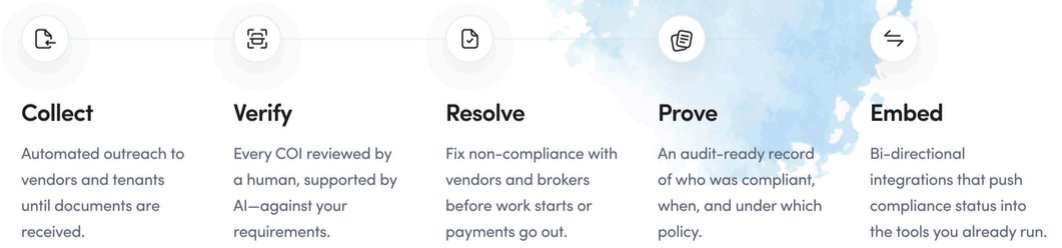

Insurance Compliance Quietly Breaks Workflows And Creates Exposure

- 01 **Compliance Lives Outside The Workflow**
Email-based tracking can't reliably enforce who can work or get paid.
- 02 **COIs Hide The Risk In The Details**
Endorsements and exclusions get missed, leaving you exposed.
- 03 **Compliance Breaks Between Renewals**
Expirations and changes slip through until something goes wrong.

Success Stories

BULLEY & ANDREWS

“I recommend Jones for ease of use and the efficiency gains that we've experienced by switching from a more manual process to something that really starts and ends in Procore and that doesn't sacrifice accuracy. I think the efficiency gains alone would be a reason why you should buy Jones.”
